

## Reading Skill and Strategy

### Reading Skill: Categorizing

As you recall, categorizing involves sorting similar kinds of information into groups called categories. Studying categories can help you identify and understand patterns in historical events. Study the diagram below. Then, complete the diagram by recording information on the Scientific Revolution. Answering the questions below will help you finish this task.

### READING STRATEGY: QUESTIONS

1. In the space provided, write the scientific theory associated with the named scientist.
